

Radiant and intricate, the Ellen Blakeley Studio Glass Collection is hand crafted from recycled industrial glass.

The collection is a Phoenix, reborn from refuse which Ellen transforms, into an elegant, decorative mosaic of intrigue, a window to the treasures embedded in the layers below the surface. The tiles are mesmerizing and will hold your interest for years to come.

Materials:

Tempered glass made from recycled glass refuse.

Sizes vary, common sizes page 6-7, custom sizes available.

Large format sizes, 1/2" thick.

Small format sizes, 3/8" thick.

Product Usage:

Walls, floors, shower and tub surrounds, backsplashes, counter-tops, accent walls, decorative accents.

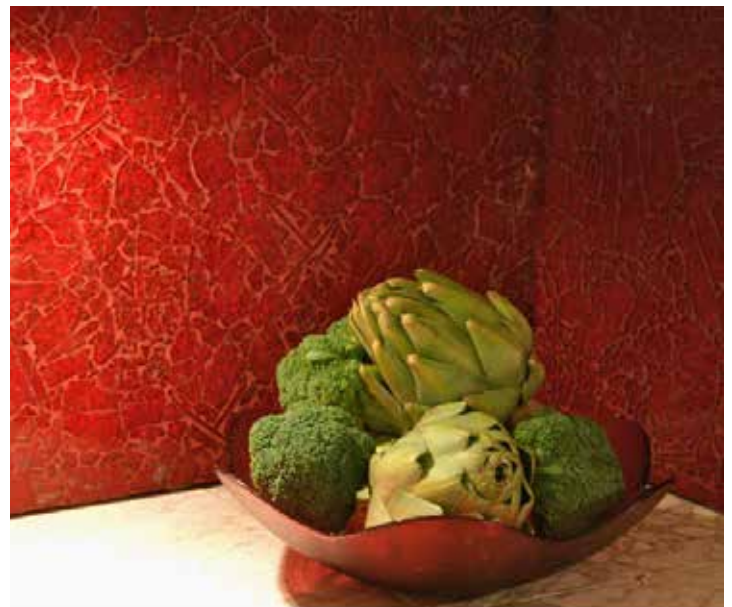

This tile is not recommended for exterior application.

Seams or grout lines in the project center should be avoided.

Color Palette:

Technical Information

EBS is committed to producing tiles that are sustainable in their fade resistance, durability and recycled content. The tempered glass is recycled refuse from commercial glass companies in Northern California.

EBS uses sanded water based grout and low VOC paints. Two-part epoxy resin is used minimally to bind the separate elements together.

All tiles and panels are made to order.

Production time varies depending on the size of project and will be confirmed before orders are processed.

Palettes can be chosen from the EBS Collections or personalized with specific paint colors and materials, such as wallpapers, textiles, photographs, foliage and text.

The product is a laminate of backer-board and glass that cuts easily on a wet saw.

Translucent panels can also be designed as windows.

Edges can be clean sanded or polished to a high shine. Holes and notches can be cut for fixtures and custom installations.
